

Legend

- This is the ball.
- This is the hole.
- Get the ball to hole in as few strokes as possible.
- ◻ This is the rough.
- ◼ This is the fairway.
- ▶ Arrows indicate a slope. If you land on one, your ball rolls 1 space that direction *then* stops.
- ▨ This is sand.
- This is water. The ball may go over water, but not land in it.
- ▲ These are trees. The ball may go over trees only when hitting from the fairway.
- Draw a line for each move, and a circle where you land. You may move in any one direction. Each stroke adds to your score for that hole. Par is 5.

How to Play

Dice GOLF

Roll to determine how far you hit the ball.

+1 to your roll if you are hitting from fairway.

-1 from your roll if hitting from sand.

When teeing off you may re-roll once.

You have 6 “Mulligans” per course that can be used to re-roll.

You may always putt (move 1 space) without rolling.

Speed GOLF

In this version, you can move 6, 3 or 1 space on each hit.

You may only move 6 spaces when on the fairway.

You may always move 3 spaces, except in sand, you may move 2 spaces.

You may *always* putt (move 1 space).
